

Visit to BT's Aadastral Park

7th April 2016 to 8th April 2016

What is Aadastral Park?

Aadastral Park is the epicentre of BT's research, technology and IT operations business. Located near the town of Ipswich in Suffolk, England. There are over 3,000 technologists from BT based on the campus who are pivotal to helping customers gain maximum advantage. This is achieved through our deep knowledge of networks and networked applications with proven skills in innovation, change management and IT operations

What is the Showcase event?

Part of BT's customer contact programme, the Showcase provides an opportunity to understand the latest communication technologies research, developments and future plans. As well as providing an insight into current and future trends, the programme can be tailored to suit the needs of delegates.

It is suggested that this showcase is run over two days. Refreshments and lunch to be provided by BT. Overnight accommodation at the expense of the delegates.

Are you interested – deadline for responses?

Places are limited. Deadline for responses is 29th February 2016.

To declare your interest and book a place contact:
